LSU HAZMAT CLASS June 14 & 28

Apology!

A lady never tells her age! However, she does celebrate a birthday!

Jody Duhe's birthday was May 7th, and I failed to put it on the calendar or in the news letter because I forgot to check with her hubby. I'm

sorry... Ms D

"REKINDLES"

Inspirational Thoughts

"We are often inclined to think that we have exhausted the various natural forms of love with a man's love for his wife, his children, his friends and, to a certain extend, for his country. Yet precisely the most fundamental form of passion is missing from this list. ... A universal love is possible; it is the only complete and final way in which we are able to love."

—Teilhard e Chardin

Happy Anniversary!

—My friend's church was having a banquet. Since it was a special occasion, the members decided to open the doors to people outside the congregation. In fact, under the heading of, "An Affair to Remember." The church bulleting went so far as to suggest, "Think of someone to bring besides your wife."

—How do most men propose? "You're going to have a WHAT?"

Ahh, the Courtship...

Father: So you want to become my son-in-law?

Boyfriend: No, I don't. But since I want to marry your daughter, I can't see any way out of it!

Lilly: I've been asked to get married lots of times!

Jim: Who asked you?

Lilly: My mother & father!

Young Man: Can I have your daughter for my wife?

Father: Well bring your wife round and we'll see.

Boy: Sir I wish to marry your daughter.

Father: Are you sure you can support a family?

Boy: I'm certain!

Father: But do you realize that there are eight of us?

Leave Fireworks to the Professionals

AMATEUR USE OF FIREWORKS CAN LEAD TO DEVASTATING BURNS AND OTHER INJURIES, FIRES AND EVEN DEATH.

EACH YEAR IN THE United States approximately 10,000 people are medically treated for fireworks-related injuries. More often than not it is the bystanders that sustain the injuries.

A 4-year-old girl was injured by a 6-inch fountain that shot colored fireballs. When the fountain tipped over, the girl was struck in the chest by a fireball. She sustained 2nd and 3rd degree burns to her chest and neck. She was hospitalized for three weeks for burn treatment and skin graft.

ALMOST HALF OF THE INJURIES OCCUR AMONG CHILDREN AGES 14 YEARS AND YOUNGER.

- √ Males sustain about 72% of the injuries.
- √ Parts of the body most frequently injured are hands and fingers (26%), eyes (21%), and head and face (18%).
- √ More than half of the injuries involve burns (63%).

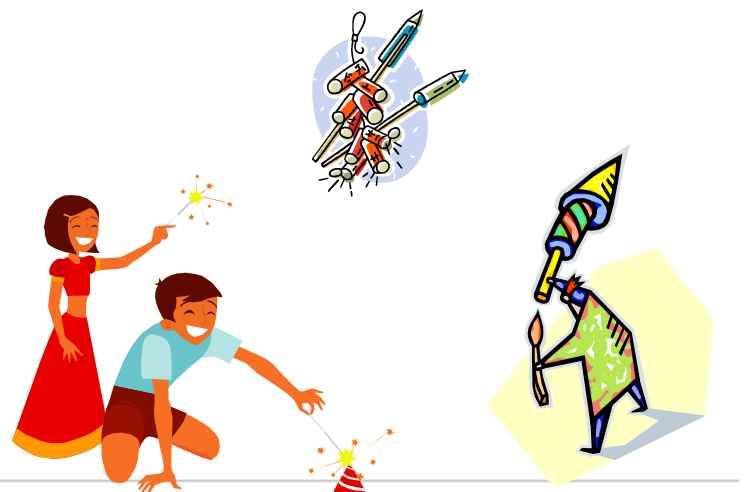

A 15-year-old boy was injured when he tied together the wires of 10 sparklers. The sparklers ignited quickly and burned down very fast, finally exploding in his hand. The boy sustained a five-inch long laceration to his hand and forearm, exposing muscle and lodging of debris in his hand and arm. The boy required extensive plastic surgery.

MANY PEOPLE THINK OF SPARKLERS AS HARMLESS FIREWORKS THAT ARE SAFE FOR CHILDREN TO USE. THEY ARE NOT!

Sparklers can heat up to 1800 degrees (hot enough to melt gold) and can easily catch fire to clothing or hair.

A 33-year old man was killed while setting off mortar style fireworks out of a black plastic pipe while in his backyard. As he leaned over one of the tubes to light the fuse, the fireworks suddenly went off striking him in the face. He was transported to a hospital where he was pronounced dead from head injuries.

THINK BEFORE YOU LIGHT!

Newspaper Ads: Phrased Wrong

Man wanted to work in dynamite factory. Must be willing to travel.

A superb and inexpensive restaurant. Fine food expertly served by waitresses in appetizing forms.

Dinner Special: Turkey \$2.35
Chicken or Beef \$2.25
Children \$2.00

Government employer looking for candidates. Criminal background required.

For Sale: Antique desk suitable for lady with thick legs and larger drawers.

Now is your chance to have your ears pierced and get an extra pair to take home, too.

Wanted: 30 girls for shipping machine operators in factory.

We'll move you worldwide throughout the country.

We do not tear your clothing with machinery; we do it carefully by hand.

Tattoos done while you wait

Tired of cleaning yourself? Let us do it for you!

Her Duty

Mrs.

Franklin had been called for jury duty. She declined to serve because, she said, she did not believe in capital punishment.

The Judge tried to persuade her to stay, "Madam," he said, "this is not a murder case. It is merely a case in which a wife is suing her husband because she gave him \$4,000 to buy her a new fur coat and he lost it at the race track instead."

"I'll serve," agreed Mrs. Franklin. "I could be wrong about capital punishment!"

SLEEP FOR SAFETY

Adults that don't get the minimum sleep to be fully alert the next day are putting themselves at risk for injury. Some adults need nine hours of sleep per night but the average person needs only eight to eight and half hours. Missing one hour less than needed can make a major difference in alertness the next day.

Tips for better sleep:

Don't nap.

Exercise early.

Limit caffeine after three in the afternoon.

Keep a regular sleep schedule

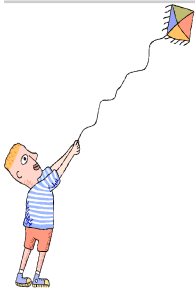

Relax with yoga before bed.

Snack on food that increases serotonin (turkey, milk, cheese, soybeans, tuna, oatmeal, hazelnuts and peanut butter).

Do Not Disturb

Children's Corner

Q. What kind of suit would a frog wear?

Q. What would you call six ducks in a Crate?

A. A box of quackers!

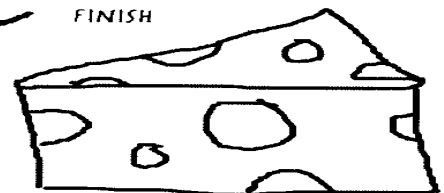

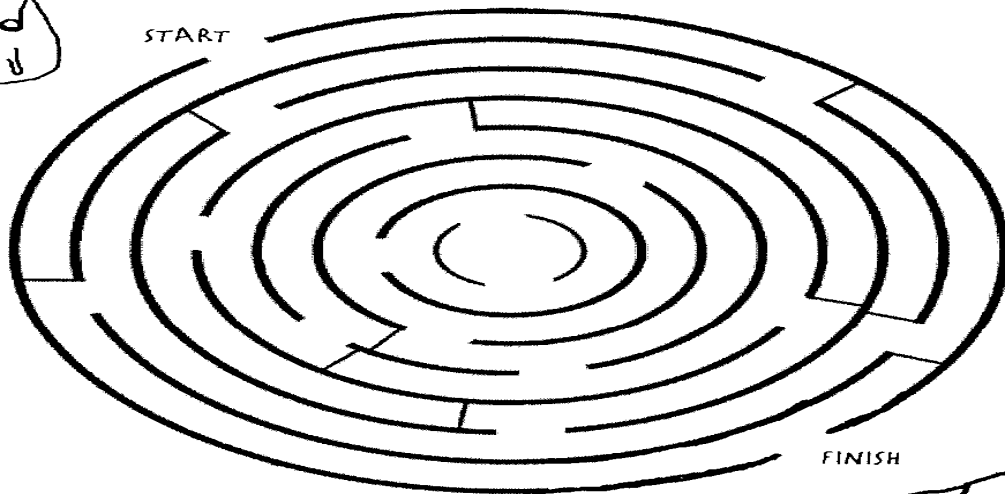

A. Jumpsuit!
